

Homepage and Access Evidence

API client: **sabotage-minecraft**

Repository: <https://github.com/hakonikomoru/sabotage-minecraft>

Prepared: 2026-06-04

This evidence page documents the API client homepage/access page and where a reviewer can find privacy and terms information. It is provided as a PDF because the review form accepts PDF evidence files.

Homepage / Access Evidence

Browser address	https://github.com/hakonikomoru/sabotage-minecraft
Project title	sabotage-minecraft
Public description	YouTube Live Chat interaction tool for a Minecraft Bedrock Dedicated Server mini-game.
Privacy Policy link	https://github.com/hakonikomoru/sabotage-minecraft/blob/main/docs/privacy-policy.md
Terms link	https://github.com/hakonikomoru/sabotage-minecraft/blob/main/docs/terms.md

YouTube Brand Display

The homepage and documentation identify that the tool integrates with YouTube Live Chat through the YouTube Data API v3. The API client name does not include the word "YouTube" and is not branded as an official YouTube product.

Reviewer Access

- There is no public login system or demo account.
- Reviewers can inspect the public repository, documentation, and evidence PDFs.
- The Bridge Server runs locally and requires the channel owner's OAuth authorization to access live chat.
